

REBUTTAL TO ARGUMENT IN FAVOR OF
PROPOSITION 23

Two Texas oil companies paid millions of dollars to put Prop 23 on the ballot, and are paying millions more to promote Prop 23 with a deceptive campaign.

There's much more than climate change at stake... Prop 23 threatens public health and our economy.

Prop 23 is a Dirty Energy Proposition that would:

- Kill vitally needed clean energy and air pollution standards.
- Kill competition from California's wind, solar and alternative fuel companies.
- Jeopardize nearly 500,000 jobs in California.
- Result in higher energy costs for consumers.

RESPECTED ORGANIZATIONS AND LEADERS WARN PROP 23 is DECEPTIVE, DANGEROUS, and COSTLY.

Dr. Charles D. Kolstad, Chair, Department of Economics, University of California-Santa Barbara:

"Prop 23 will not help the California economy. In fact, Prop 23 will cause the loss of California jobs in the clean energy field, one sector of our economy producing significant job growth."

The League of Women Voters of California:

**SUBJECT TO COURT
ORDERED CHANGES**

“Claims by its promoters that 23 would only be in place for a short time are FALSE. Prop 23 effectively repeals clean energy and air pollution standards indefinitely, and jeopardizes dozens of regulations that promote energy efficiency and pollution reduction.”

American Lung Association in California:

“Prop 23 would allow polluters to avoid laws that require them to reduce harmful greenhouse gases and air pollution. 23 is a serious threat to public health.”

Look into the FACTS, and Vote NO on 23.
